Company overview

Our clients can rely on us for all services needed to ensure operational readiness. For over forty years, we have been providing drydocking, ship repair and refit services to our customers' specifications and standards.

It is our dedication to excellent customer care and our consistency that has made us the trusted partner of shipowners in Greece and abroad.

Our vision

To be the go-to partner for ship dry-docking & refit works, and to exceed our customers' expectations in terms of quality, reliability and range of services.

Our mission

We provide drydocking, repair and refit services of exceptional quality to our customers.

Location

The shipyard is conveniently positioned in Chalkis, mainland Greece, at a fully protected gulf. Its geographical position favors vessels that are travelling to and from the Black Sea. It is also accessible for vessels travelling from Suez to Western Mediterranean and vice versa.

Our distinct advantages

- Dedicated, experienced workforce, qualified subcontractors
- Fast and reliable service of high quality
- Good planning on budget and on time
- Health and Safety in all aspects of operation – a top priority
- Certified EN ISO 9001:2015 & ISO 45001:2018
- Port facilities that operate under the ISPS code
- Approved environmental impact licence

Our services

We undertake regular maintenance work for most type of vessels, ensuring compliance with operational requirements, classification rules and regulations. We carry out repair works – scheduled or emergency – for damages or malfunctioning equipment.

Our comprehensive service covers short or extensive dockings and ranges from basic steelwork and piping to the most complex electrical and mechanical systems, as well as the repair and refit of interior accommodation.

Our wide-ranging portfolio of customer support services includes assistance with all documentation required for certification companies, underwriters and insurers.

We plan our time schedules carefully so that our teams of highly skilled and experienced craftsmen can complete all necessary works at the highest quality level and in the shortest lead time possible.

- Drydocking
